

Comparison of Lowrance iFinder Pro & Garmin GPS 60 Tracks and Waypoints.

February 6, 2005

Time: 1:30 (17:20 - 18:50)
 Distance: 8.32km
 Start: S. Winnipeg WGS84 14U 631825 5509354
 Error: Error >20m on track, 5-9m at waypoints.
 Notes: Less than ideal conditions skiing through moderate bush with GPSr in coat pocket.
 When saving track Garmin removes redundant points so some data was lost. Garmin also probably lost track 3 times, software filled the gaps. Lowrance kept more points but lost track twice.
