

**Date:** March 6 (Wednesday)

**Time:** 8:30am – 12:30 pm

**Location:** Standard Aero

**Note:** Bus will leave EITC at 8:30. Lunch will be provided in the Boardroom at StandardAero.

**The event is co-sponsored by:**

Department of Mechanical Engineering

Faculty of Engineering, both at U of Manitoba

StandardAero

Canadian Society for Mechanical Engineering

## Tour to StandardAero

StandardAero is one of the world aerospace industry's largest independent maintenance, repair and overhaul (MRO) providers. It offers engineering careers in a number of disciplines including repair & development, electrical, mechanical, process, system, service, performance to name a few.

Women in ME from UM and StandardAero jointly organize a tour to StandardAero. The tour consists of two parts: (1) tour StandardAero facilities with focus on engineering, science and latest technology, and (2) meet with StandardAero women engineers - representing different positions: manager, director, service engineer, process engineer etc. These woman engineers will share their experience and insights into opportunities, career progression, personal experiences, leadership, stress management, working in a male dominated environment and work/life balance.
