

The Department of Chemistry, University of Toronto, is seeking a Research Associate (Limited Term) to join Professor Andrei Yudin's group. The successful candidate is expected to have extensive experience in cyclic peptide synthesis and characterization. The candidate must be well familiar with advanced NMR techniques aimed at elucidating three dimensional structure of complex cyclic peptide molecules. In addition, the candidate is expected to have extensive training in molecular modeling using Schrodinger software.

Please send your Curriculum Vitae to Professor Robert Morris, Chair by November 25, 2011 to chair@chem.utoronto.ca.

The University of Toronto is strongly committed to diversity within its community and especially welcomes applications from visible minority group members, women, Aboriginal persons, persons with disabilities, members of sexual minority groups, and others who may contribute to the further diversification of ideas. All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority.
