Section A01 is a developmental section with an additional teaching period per week, for a total of four teaching periods each week. This will enable us to do some review of relevant high school materials as well as more examples of the new topics. As in other sections, students in the developmental section will be required to write a final exam, a midterm exam and five quizzes. However, in addition, there will be four assignments. These are to be handed in for grading. The assignments and quizzes each count 5% of the final grade. The best four out of five quizzes will be considered.

Evaluation:

1. The Midterm test counts as 30% of the final grade and it will be on February 25, 2010 at 5:30 p.m.
2. The assignments and quizzes will count as 10% of the final grade.
3. A two hour final examination, to be scheduled by the Registrar's Office, will count for the remaining 60% of the final grade.

Notes:

- (1) If you miss an exam, you will be assigned a mark of "zero" unless reasons and acceptable supporting evidence are provided. There is no make-up for missing quizzes and assignments.
 - (2) **Calculators and/or reference material will NOT be allowed on tests or final examination.**
 - (3) Students are advised to familiarize themselves with the General Academic Regulations of the University contained in the Undergraduate calendar. All forms of academic dishonesty are treated very seriously by the Department of Mathematics, the Faculty of Science. Submitting another person's work as your own, copying from another person at an exam, or bringing unauthorized information into a test or examination is a serious offense. You need to attach an **honesty declaration form** to each assignment. The **honesty declaration form** is available on the course web page.
- (3) Voluntary Withdrawal Deadline is Friday March 19, 2010.
