**PART B: Short Answer Questions**

9. Write your final answers for this question on the lines provided below. Only your final answers will be marked!

The above is the graph of the function  $f(x)$ . The graph goes up without bound as it approaches the line  $x = -2$ , and it approaches the  $x$ -axis to the right.

Use the graph to find the value of the quantities below. If a limit does not exist, indicate whether it tends to  $+\infty$ ,  $-\infty$ , or neither.

- [1] (a)  $\lim_{x \rightarrow 1^-} f(x) = \underline{\hspace{2cm}}$   
 [1] (b)  $\lim_{x \rightarrow 1^+} f(x) = \underline{\hspace{2cm}}$   
 [1] (c)  $\lim_{x \rightarrow 1} f(x) = \underline{\hspace{2cm}}$   
 [1] (d)  $\lim_{x \rightarrow \infty} f(x) = \underline{\hspace{2cm}}$   
 [1] (e)  $\lim_{x \rightarrow -2^+} f(x) = \underline{\hspace{2cm}}$
