

IMPORTANT BIOCHEMISTRY LABORATORY INFORMATION

1. Labs start the week of September 8th. Students require a lab coat and safety glasses. These can be purchased from the Chemistry Club in the entry hall to the Parker building at times that are posted.
2. They are held in the Parker Building Room 406, 416, 422, and 428.
3. Lockers are NOT assigned but are available on a first come first served basis.
4. Experiments are done in pairs so students work with whomever is in the locker beside them. If two students are planning to work together they must arrive together.
5. Please make sure you have read **the first 30 pages** of the Laboratory Manual before you arrive for your first laboratory.
6. The lab schedule is in the lab manual together with information about the lab and the course. Students should read through this information.
7. Students require a lab coat and safety glasses. These can be purchased from the Chemistry Club in the entry hall to the Parker building at times that are posted.
