

Laboratory Room Assignments for CHEM/MBIO 2770

Aurora assigns all students registered in CHEM/MBIO 2770 to room 406 Parker for your laboratory sections, but you will not necessarily perform your experiments in that room as rooms 416, 422 and 428 (all in Parker) are also used for biochemistry laboratories. Please note that depending on your section some of these rooms may be unavailable. The table below indicates the room assignments for the different lab slots.

You are free to report to any of the available rooms for your first laboratory. If there is someone you wish to work with during the term you should select adjacent lockers.
