

MATH 1300 VECTOR GEOMETRY AND LINEAR ALGEBRA
A02 , Slot 8
Winter 2007

Instructor: Nina Zorboska

There will be 5 tutorial quizzes (tests) with the best 4 out of the 5 counting (no make up tests). They will be done the last 20 or 25 minutes of the tutorial hour.

The tutorial quizzes will be worth 10% of the final mark.

Tutorials for section A02 start on January 11 (Thursday).

Tentative dates for the tutorial quizzes are:

Tutorial Quizzes: #1 January 18
#2 February 1
#3 March 1
#4 March 15
#5 March 29

Midterm exam: February 22 (Thursday) 5:30-6:30 p.m.

Exercises from the textbook that are assigned for homework will also be posted on my web page. They are a good guideline for questions during the tutorial hour.

Office Hours: Tuesdays 11:30-12:30 and Wednesdays 11:30 – 12:30
(or by appointment)

MATH 1300, Winter 2007 Suggested Problems for Homework

The following is a list of problems from the textbook (Elementary Linear Algebra by Anton) and should be regarded as an initial guide. Most of them have short answers at the end of the textbook. It is up to each individual student to decide if he/she needs to occasionally modify the list (by including or excluding problems from the exercise sets in the textbook). In general, doing more problems improves your understanding of the material and your chances to get a higher mark.

Section	Pages	Exercises
