There will be 5 tutorial quizzes (tests) with the best 4 out of the 5 counting (no make up tests). They will be done the last 20 or 25 minutes of the tutorial hour.

The tutorial quizzes are worth 15% of the final mark.

Tutorials for section A03 start on 15 September (Thursday).

Tentative dates for the tutorial quizzes are:

Tutorial Quizzes: #1 September 22
#2 October 6
#3 October 20
#4 November 10
#5 November 24

Midterm exam: October 27 (Thursday) 5:30-6:30 p.m.

Exercises from the textbook that are assigned for homework are on the back of this page and will also be posted on my web page. They are a good guideline for questions during the tutorial hour.

Office Hours: Tuesdays 3:30 – 4:30 and Wednesdays 1:00 – 2:00
(or by appointment)

MATH 1300, Fall 2011 Suggested Problems for Homework

The following is a list of problems from the textbook (Elementary Linear Algebra by Anton) and should be regarded as an initial guide. It is up to each individual student to decide if he/she needs to occasionally modify the list (by including or excluding problems from the exercise sets in the textbook). In general, doing more problems improves your understanding of the material and your chances to get a higher mark.

Section	Pages	Exercises
